EXPERIENCE

Captain Sales | UI/UX Designer & Frontend Developer Intern

(Aug 2023 - Nov 2023)

- **Led** the design of a comprehensive project from start to finish, **overseeing** all phases from concept to implementation.
- **Utilized** Figma for design iterations, **creating** wireframes, prototypes, and high-fidelity mockups for smooth user experience.
- **Implemented** front-end development using HTML, CSS, JavaScript, and React, **building** responsive and interactive interfaces.

Code Clause | Web Developer Intern

(Aug 2023 - Sep 2023)

- **Developed** a Text Editor, Translator, and Expense Tracker using HTML, CSS, and JavaScript, showcasing proficient web development expertise.
- **Cultivated** skills in web development, problem-solving, and teamwork through hands-on project experience.

Datacom | Software Developer

(June 2023 - July 2023)

- **Focused** on identifying and resolving bugs for a movie theater discovery website, **ensuring** optimal functionality and performance.
- **Utilized** React.js to develop and maintain the website, **contributing** to a smoother and more efficient user interface.

PROJECTS

Journee | [Link](#)

- **Developed** Journee, a dynamic web application inspired by Airbnb, using the MERN (MongoDB, Express.js, React.js, Node.js) stack, **providing** a seamless platform for users to discover, book, and manage travel accommodations.
- **Implemented** fully functional login and signup features, **allowing** users to create accounts and access personalized services.
- **Enabled** users to add listings and comments, **fostering** user engagement and interaction on the platform.

TransLingo | [Link](#)

- **Developed** The Language Translator, a web application built with HTML, CSS, and JavaScript, **leveraging** the Google Translate API to facilitate text translation between multiple languages.
- **Enabled** support for over 90 languages, **ensuring** a diverse range of translation options.
- **Enhanced** functionality by integrating the ability for users to upload documents and download translated versions, **providing** a seamless experience for document translation.

Tiger Dev | [Link](#)

- **Collaborated** on the "Preservation of the Himalayan Tiger" NFT project, **leading** UI/UX development and creating captivating digital art highlighting the tigers' significance.
- **Played** a pivotal role in the project's success by **facilitating** effective communication and fostering teamwork among team members.
